

Figure 1 The task description network of a name with three HMMs

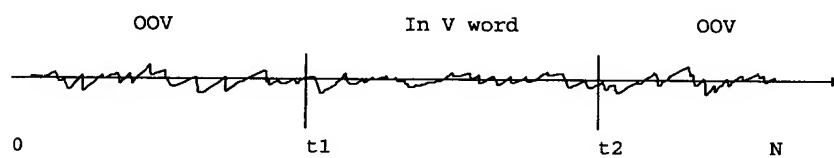

Figure 2 Quantities involved in utterance rejection

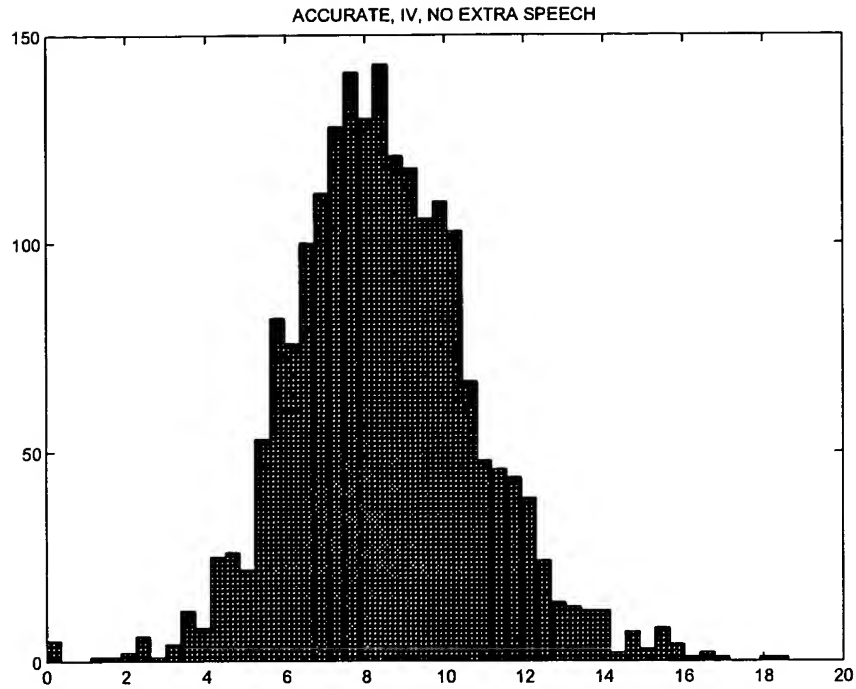

Fig. 3A

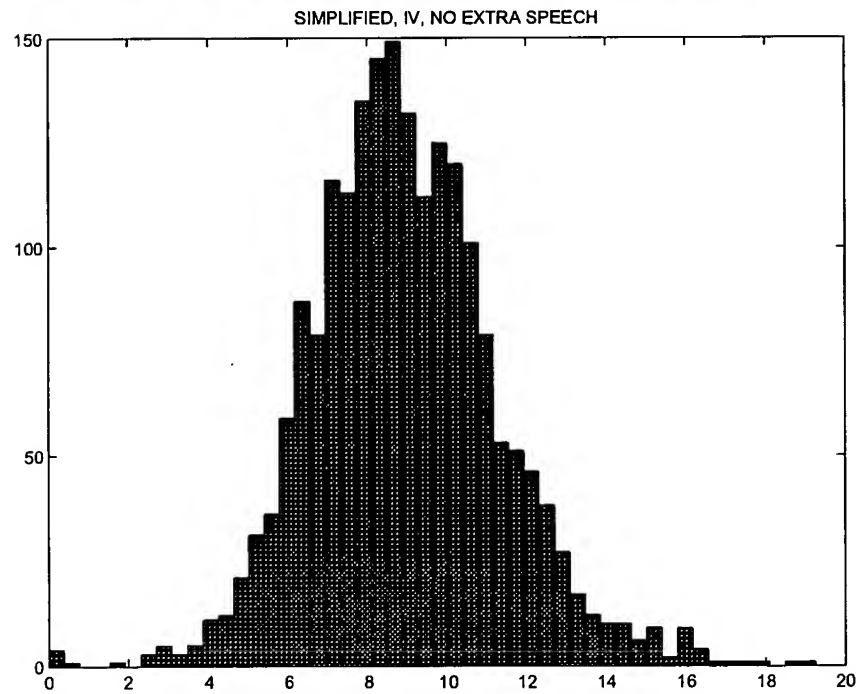

Fig. 3B

.. Histogram of the measurements (without extra speech) for rejection decision. Top: Accurate formulation (Eq-12). Bottom: Simplified formulation (Eq-15)

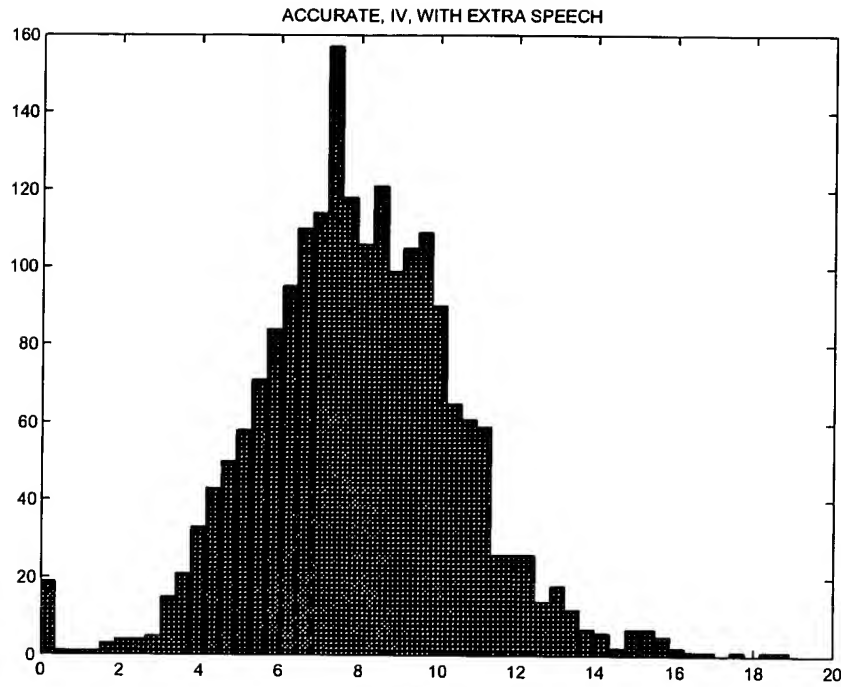

Fig. 4A

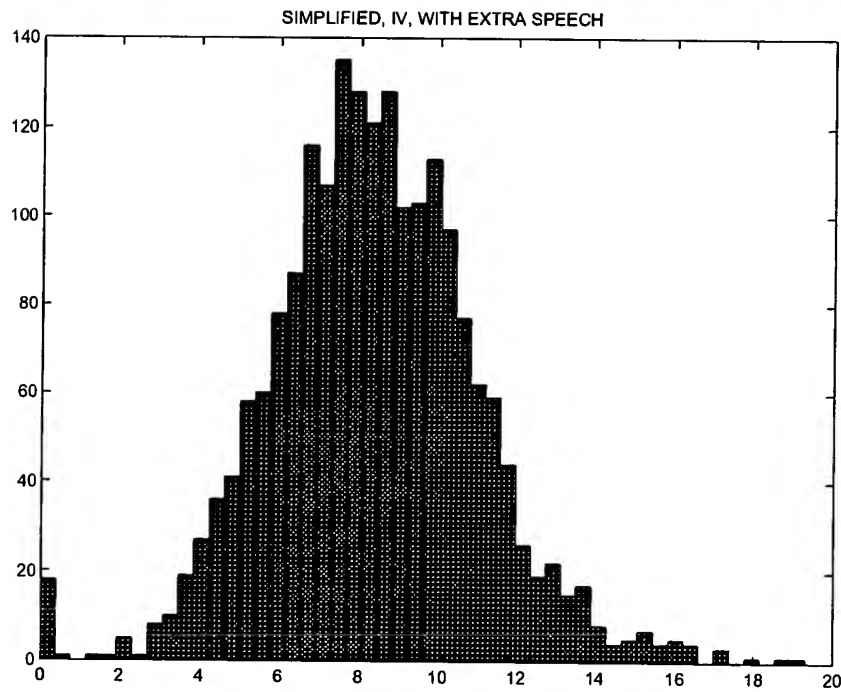

Fig. 4B

31 Histogram of the measurements (with extra speech) for rejection decision. Top: Accurate formulation (Eq-12). Bottom: Simplified formulation (Eq-15)

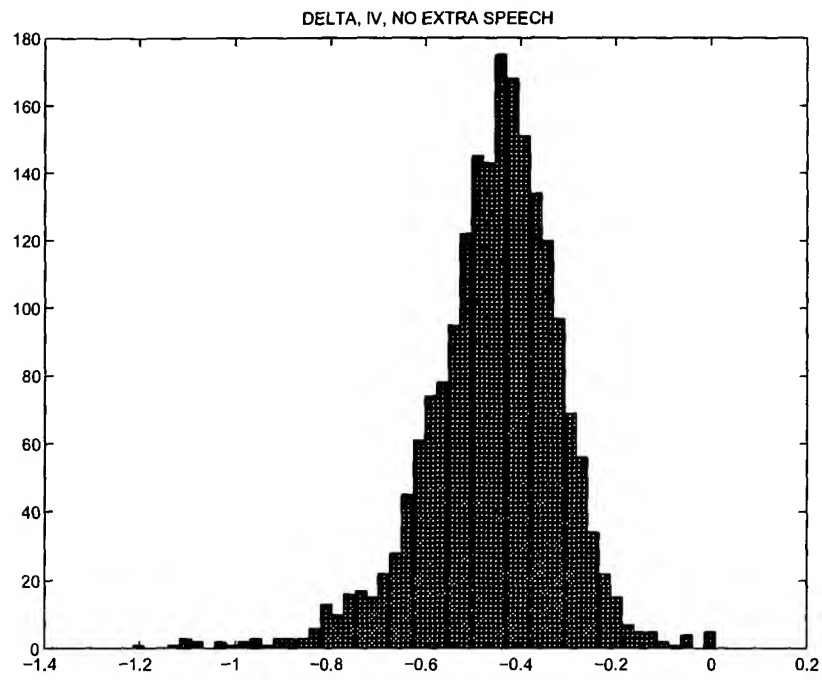

Fig. 5A

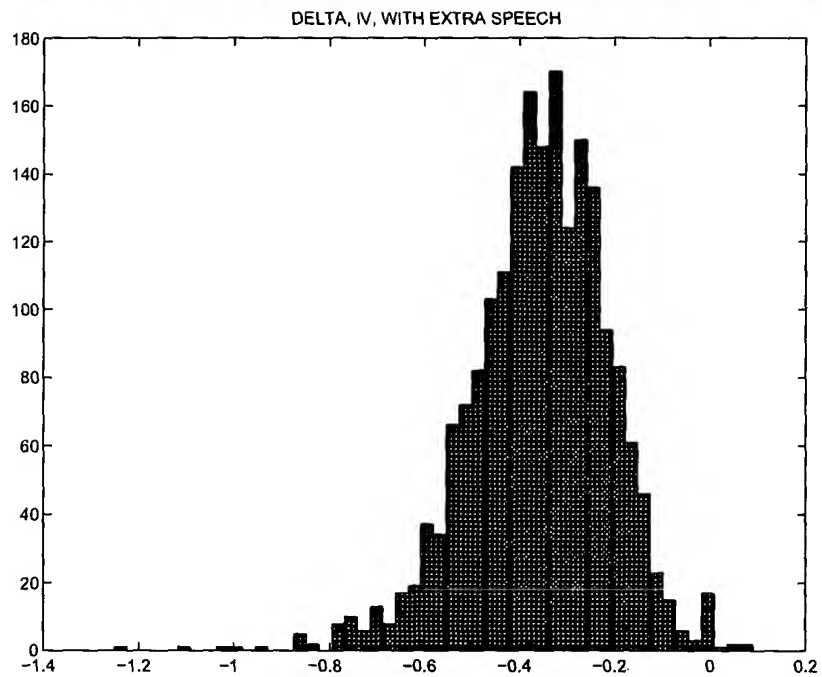

Fig. 5B

Histogram of the measurement difference $(\rho - \hat{\rho})$ obtained from accurate and simplified algorithms for rejection decision. Top: without extra speech. Bottom: with extra speech
